

Press release

Susanne Müssauer guarantees sustainability at Gutmann

(Vienna, 09 December 2013) – Susanne Müssauer, 50, a recognized expert in this field, will be responsible for setting up the product line “Sustainable Investments” at Bank Gutmann. Gutmann has decided to systematically establish its own product line “Sustainable Investments”. The clients of the bank are thus offered the possibility to build portfolios that observe social, ecological and governance criteria.

Susanne Müssauer has more than 27 years worth of experience at domestic and Swiss banks where she served in leadership positions in the fields of securities analysis, fund management and client relationship management. Since 2004 she has worked on the issue of sustainability. For Bank Sarasin, which has been considered a pioneer in this field, Ms. Müssauer built up and led the division “Institutional Clients Austria”. She was particularly successful in the acquisition and supervision of special mandates with an investment focus on sustainability. As an experienced analyst and fund manager she has always put much emphasis on a structured investment process.

Susanne Müssauer is married and lives in Vienna.
